REBOUND OF STOCK PRICES

EXCITED BUYING IN PROGRESS D. L. & West... D. & R. G...... AT THE CLOSE.

New York, March 16 .- There was a furolatile recovery in prices today inate depression of Thurs-An over-extended bear acwas in evidence in the ebulliency The day's business, ver, showed a very large absorption acks going on. The complexion of ank statement had something to do ank statement had something to do
the confidence of the market. The
dien of the deposit item by scaling
of loans proved sufficient to reduce
eserve requirement more than pronately to the cash reduction and so
aserve an addition to the surplus.
Sometime is supposed to include the
preparations for the Friday settleof the earlier part of the week,
eater effect upon the averages than
an contraction by stock liquidation
so that the effect of the loan rent is expected to be carried over inxt week's statement. The dimenof yesterday's money settlements
dicated V. today's clearing house
nges, which rose to \$678.718,315. The
ime this figure has ever been exthis figure has ever been ex-s on Jan. 3. 1906, when the an-ements resulted in exchanges Sterling exchange ruled at low level today, indicating f New York to withdraw gold unless that step should be itic. Funds were more freered in time loans today with the don of confidence, and a rise in w York exchange at Chicago at s occurred. The tenor of the States Steel annual report, esthe reference to the sustained orders received since the first of of orders received since the first of f orders received since the first of ar, was a sustaining factor in the thof the market. So also was the first of the mercantile agency reviews, gan expanding volume of business the country. Hasty profit takade the closing of the market irt, but there was excited buying progress.

ill-in progress. otal sales of bonds, par value. \$1,860,money situation must be allowed the large share of responsibility for U conditions which have grown up. The mess of money is now world-wide, pressure in London and in Berlin beamost as acute as in New York. The ing almost as acute as in New York. The left active trade conditions call for exmordinary supplies for the circulation and the result is a depletion of cash holdings in banking reserves on which to base wedits. The excessive demands for capital to place in fixed forms has been a subject of observation for months. It is very generally assumed that the letive speculation of last fall left large boldings in the hands of men of large wealth that have never since been cleared up owing to the persistence of the general speculative public in refraining from the market. This is supposed to account for a large part of the forced Houidation and to explain also the absence of failures due to the heavy fall in prices. The source of the selling remains undisclosed, however, and the difficulty, therefore, of

ever, and the difficulty, therefore, of forming an opinion on its motives or reasonableness are elements of continued disquiet in the stock market. The general feeling was, of course, much reassured by the effective rally of Friday, which seemed to ward off a threatened disaster, but opinion on the future of the stock but opinion on the future of the stock market is in a confused state. Bonds were little affected by the crash in stocks. United States 4s have advanced ½ per cent on call during the week.

The collapse in prices of stocks which is occurred this week has been so sudmand violent as to leave opinion dazed wer the meaning of the demonstration Posted rates, \$1.80\%\a4.84\%\a4.85.
Commercial bills, \$1.78\%\a4.85\%
Bar silver. 67\%c.
Mexican dollars, 52c.
Government bonds, steady; railroad bonds, strong. The extent of the declines has been so portentous, the volume of the offerings which have deluged the market have been so overwhelming and at the same times the usual consequences of fallures of fi-mancial disasters have been so entirely lacking as to leave an uncanny effect upon the minds of observers. The extent of the slump is the more remarkable as coming upon the heels of a prolonged decline which had already gone far to discount unfavorable factors, which were supposed to be then upon the market. The measure of fall in prices is so much greater when compared with such a pre-vious occasion as the panie of 1901, with which the present week is most gener-ally compared for violence of fluctua-tions and indiscriminate unloading of

There is no doubt that the prevailing opinion in the stock market, financial and railroad world attributes the principal responsibility to the situation the rail-road corporations find themselves in from the prevailing attitude towards them of governmental agencies and the prevailing sentiment of the whole country. The discussion in Wall street for some time past to favor the bears. Northwestern receipts has been of compilation of laws passed were liberal and the weather was favorby various state legislatures for the re-striction of railroad charges and for other measures of regulation; of the course of proposed measures of the national gov-ernment looking to additional restraint upon corporation powers and administra-tion essecially in the issuing of honds tion, especially in the issuing of bonds and stocks and the fixing of valuations of railroads with a view to traffic charges to be permitted to the rail-

has been greatly heightened by the cours as been greatly heightened by the course of prominent men in the railroad and banking world, which was construed as an indication of the keen anxiety they were laboring under of the prospect oftered by this course of events. The attitude of appeal to the public and the severnment authorities which this course suggested has awakened the apprehension of holders of stocks. This is true of speculative holders, but the more permanent investment holders have been affected also to some extent. ranent investment holders lected also to some extent. assumption has gained ground in Vall street district that this was

impression of all this discussion

the feeling of the great controlling in-vision themselves in the leading rail-load systems of the country, and the fear has taken hold of the speculative magination that holders of securities of his prepre-eminent class were unloading holdings indiscriminately in a spirit iter hopelessness of the future earnof utter hopelessness of the future earn-ings of dividend-paying power to their properties.

Ex. U. S. deposits, \$6.678,950; increase, \$1.007,325.

The Financier says: When the fact is The Financier says: When the fact is cause of free seiling, but later became steady on buying by cash houses. May opened a shade to \(\frac{1}{4}\text{0}\) ac lower at \(\frac{3}{2}\text{c}\), and \(\frac{1}{2}\text{0}\) cand closed at \(\frac{3}{2}\text{c}\). Provisions were weak at the opening because of increased receipts of live to changed, lard was down \(\frac{7}{2}\text{c}\) and ribs were was most remarkable, it showing not only a minimum decrease in cash, but an inminimum decrease in cash, but an

a minimum decrease in cash, out an increase in the surplus reserves. The cash loss as recorded was \$2,39,600, or about half of the amount that was traced to treasury operations and one and two-thirds millions less than that which was estimated upon the basis of the known movements of money. estimated upon the basis of the known movements of money.

General deposits decreased \$15.914.700, and the required reserve was therefore reduced \$3.978,475, deducting from which the loss in cash, as above, left \$981.375 as the increase in surplus reserve to \$3.032.100. Computed upon the basis of deposits, less those of \$14.583,400, public funds, the surplus is \$6.678.950. The statement made a good proof, the sum of the reduction in loans and the loss of cash being only about half a million greater than the decrease in general deposits. Loans were contracted by \$13.304. 200, and this, too, notwithstanding there was during the week an almost unprecedented volume of liquidation in the stock market, which ought, it would seem, to have resulted in a far greater contraction in loans than that above shown; pos-

tion in loans than that above shown; possibly an increase of two and one-hal millions in the excess of loans over de

J. M. BARLL, GOLDFIELD, NEV.

Mr. Barll writes as follows:

"Dear Doctors: Pressure of business has delayed an answer to your recent letter. I have not felt a single symptom of Catarrh or Stomach Trouble for weeks-in fact, I don't remember when I last noticed any trouble. I still have medicine on hand in case I need them, but unless I take a sudien change I won't use any more, as I am PERFECTLY SOUND AND WELL. I send by mail a photo taken several years, which my friends will recognize, and you may use same with this letter if you think it will be the means of bringing other sufferers to health.

MENINGITIS. What It Is-and Its Relation to

Catarrh.

Catarrh.

MEINIGITIS—The disease that has caused so many deaths recently is derived from two Greek words, meaning together "inflammation of the membrane." It is called by half a dozen names—but carries off its victim no matter what name is given it. It is a GERM DISEASE and 18 COMMUNICABLE.

An authority on this dread disease states: "It might seem that germs lodged in an interior membrane, nowhere exposed, would hadly be likely to become diffused in the air and spread. But the germs, it must be remembered, are in the blood as well, and consequently affect the whole body, exterior and interior. THE AIR PASSAGES AND NOSE ALWAYS CONTAIN THE GERMS AND IT IS THROUGH THE DISCHARGES FROM THE NOSE AND THROAT THAT MEINGITIS IS ORDINARILY SPREAD."

SPREAD. Right here Drs. Shores wish to emhasize the danger of infection when a persons suffers from Catarrh, and the whole mucous membrane of the head and nose are highly inflamed and offer excellent inducements to the "migratory germ that is looking for a place to settle down." The germs enter the nasal passages and soon find their way to the brain—then inflammation sets in and the undertaker begins to "take notice." Every person who knovs himself to be suffering from Catarrh IS OPENLY INVITING MENINGITIS AND CONSUMPTION. MENINGITIS AND CONSUMPTION, and also endangering the lives of others. Drs. Shores do not claim or pretend to treat or cure Meningitis—IT IS NOT IN THEIR LINE—but they do claim that many cases would be prevented, and the spread of discose diminished. If people with Consumptions of the content of the conten ease diminished, if people with Ca-tarrh would have themselves PROP-ERLY TREATED-instead of going ERLY TREATED—instead of going around with a standing invitation to every disease germ floating in the air—to find lodgment in the nasal passages. There is no longer any excuse for Catarrh, when you can be CURED for the low fee of \$5 a month, including all modifies.
